

DEVELOPING EFFECTIVE TEAMWORK FOR LEADERS

ONE-DAY PROGRAMME

This one-day programme looks at developing skills to lead an effective team. It will help participants learn the importance of creating great teamwork and how to get the best out of people from the perspective of the leader and the team.

Key Learning Objectives:

- Benchmark themselves against the qualities of effective leaders
- Understand the difference between leading and managing
- Develop team goals based on the business vision
- Motivate their staff by understanding their drivers and developing actions to support them
- Challenge staff in a meaningful and effective way and deal with difficult employees
- Tools and techniques to coach and manage team members

Who will benefit from this training?

Managers at all levels need to be skilled at developing and nurturing teamwork and team performance. This one-day programme is aimed at managers who have responsibility for teams and want to develop their skillset for improved organisational performance.

Methodology

The programme is designed to be interactive, enjoyable and motivational. Participants will be encouraged to get involved and learn through:

- ✔ Workshops
- ✔ Individual exercises
- ✔ Role-play
- ✔ Group activities

Each participant will create a personal learning and action log to guide his or her own development after the programme
